

We understand it is disappointing that the Recreation Centers are still closed at this time. While the phased guidelines, from the Governor's Office and Health Department, does address gyms/fitness centers, we know you understand that the Recreation Centers is so much more than that. The recommendation from the Governor and the Health Department is for fitness centers to **remain closed until further notice** during the moderate risk phase; should the facilities decide to open strict distancing and cleaning guidance should be adhered to. We continue to assess how the Recreation Centers could open, while adhering to the safety criteria and guidelines provided by the Health Department and be as responsible as we can be for the County. Please be patient and watch our website and social media pages for the most up-to-date information. Thank you for your support and we look to seeing you soon
